

# COMFORTER RELEASE

Dear Customer,

We did NOT clean your comforter due to the risk of damage during the routine cleaning process. There is a possibility that the fiber fill will ball up and create lumps. Also, the dye may fade, especially during the first cleaning. With your permission, we will gladly clean your comforter, taking every precaution to prevent any damage. However, it will be necessary for you to sign below, absolving us from any damage which may occur in the process. If you would like us to clean your comforter, please sign below and return this release form attached to the comforter. Thank you!
